

# More Graphic Applications

3D superman

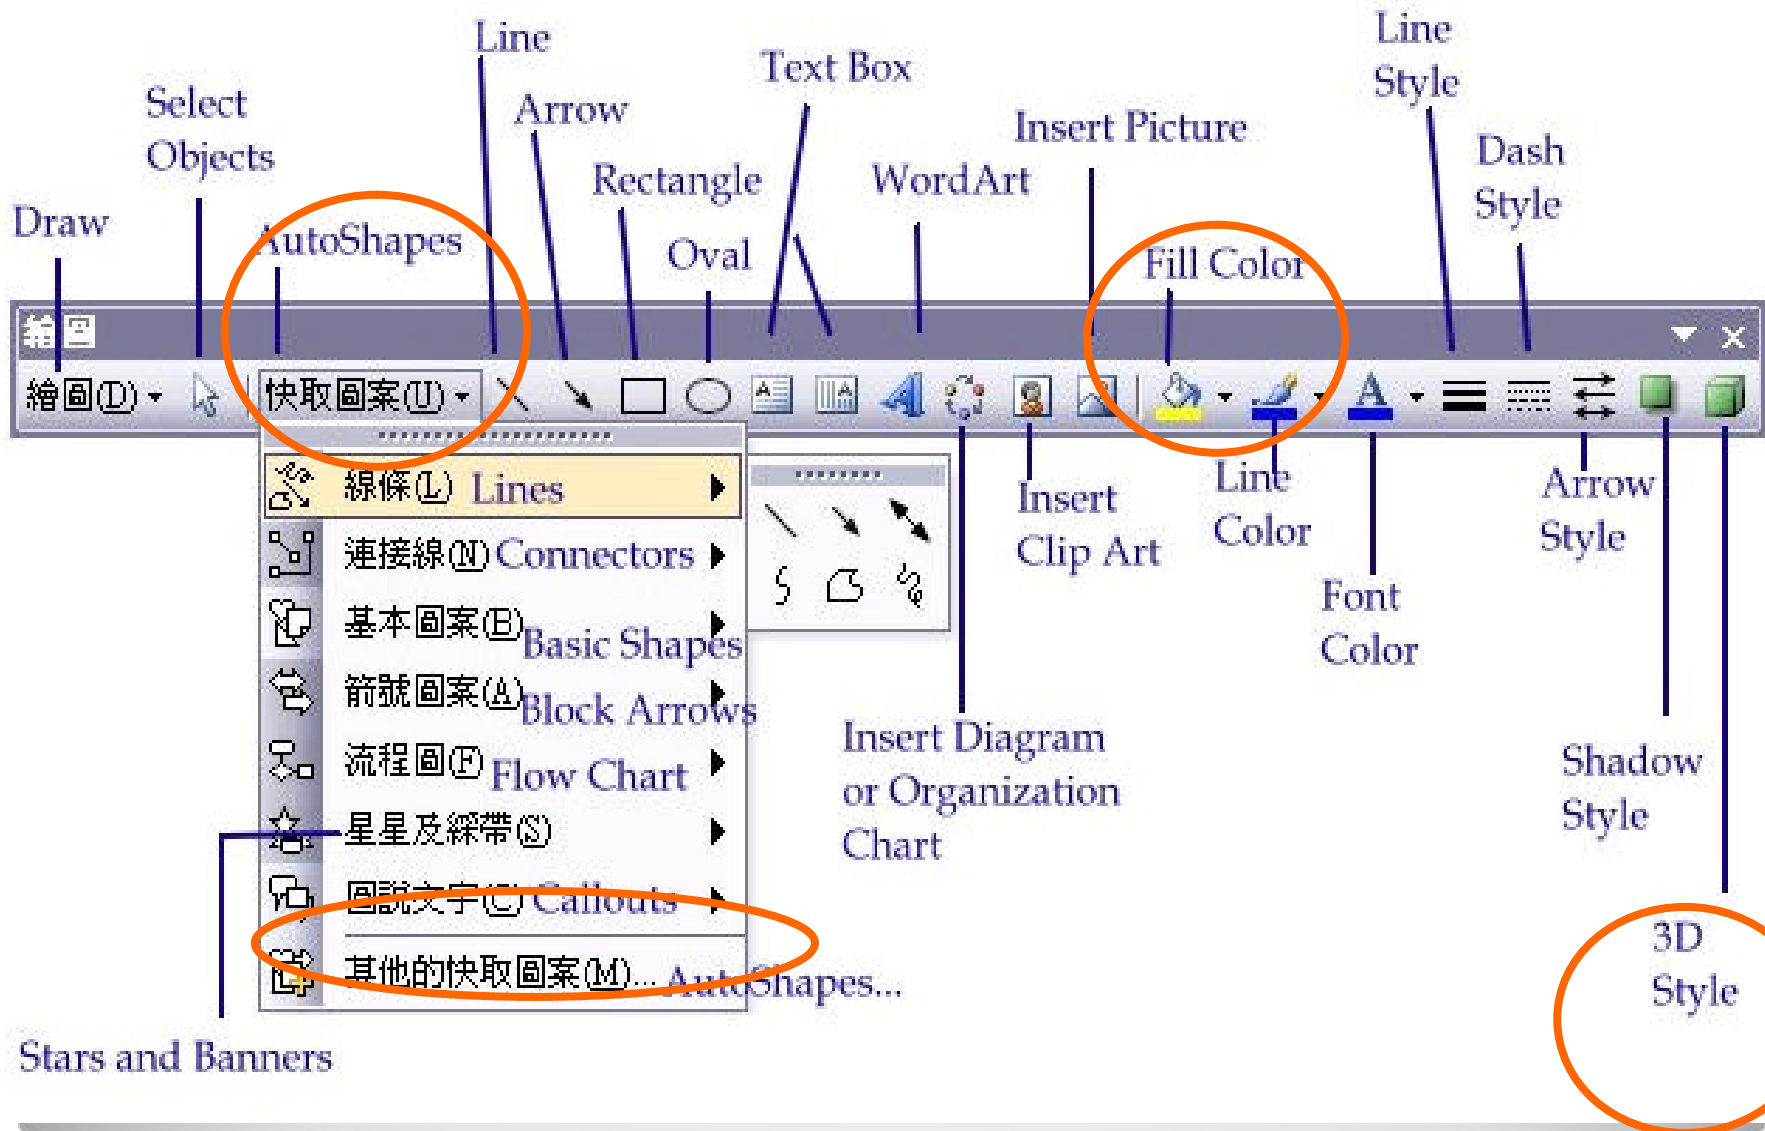

Upload this assignment to our Gspace account.

- Please (1) upload a file before next week's class, and (2) a printout of the drawing if you want feedback.
- **File name:**
  - ? For your assignments, please name them as "section\_type\_name" with underlines between each word. (i.e. "b\_3D\_Gretchen")
  - ? Make sure that you follow this instruction.
- Check that you have the correct file before you upload it.
- Using Gspace

## Deadline and Instructions

- Use **Drawing Tools (繪圖)** and **AutoShape (快取圖案)** to come up with a **superman, superwoman, or super animal** → **Be creative!**
- **Apply colors (single, double, or multi-colors)**
- **First, you draw a 2D version of the graphic and then turn it into a 3 dimensional drawing – for comparison with the 2D version.**
- **Make sure the orders of the layers (圖層順序) are correct.**
- **Group the objects (群組)**
- **Give a dialogue box (callouts/圖說文字)**
- **Overall effect**
